SUMMARY

Third-year Scientific Computing student with hands-on experience in data engineering and analytics. I build ETL pipelines with automated data quality checks, design Star Schema data warehouses in SQL Server and deliver Power BI and Tableau dashboards. Data Engineer in the DEPI scholarship and Data & AI Solutions Intern at HVIA.

EDUCATION

B.Sc. Computer & Information Sciences, Scientific Computing Department | Ain Shams University | Expected 2028
Coursework: Data Structures, Database Management Systems, Linear Algebra, Probability & Statistics, Statistical Analysis, Artificial Intelligence, OOP, Discrete Mathematics.

TECHNICAL SKILLS

Languages: Python, SQL (T-SQL), C++, Java, Kotlin
Data Engineering: ETL pipelines, data warehousing (Star Schema), data quality automation, SQL Server (SSMS, SSIS, SSAS, SSRS), MySQL, SQLite, MongoDB
Analytics & BI: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI (DAX, Power Query), Tableau, Excel
ML & Cloud: Scikit-learn, Machine Learning, AWS, Azure
Tools: Git, GitHub, Visual Studio Code, Visual Studio, PyCharm, Jupyter Notebook

EXPERIENCE

Data & AI Solutions Intern | HVIA | Oct 2026 - Present
- Built an end-to-end Olist data pipeline: Python ETL, SQL Server Star Schema and Power BI dashboards.
- Working on a data analysis project for a client company.

Data Engineer | Digital Egypt Pioneers Initiative (DEPI) | Jul 2026 - Present
Python Programming Intern | CodeAlpha | Oct - Nov 2026
Data Analysis Using Python Intern | Auspify Technologies | Oct 2026 - Present
Data Science Program | GCI World, Matsuo-Iwasawa Lab, University of Tokyo | Sep 2026 - Present
Machine Learning Intensive (32 hrs) | Huawei with Ministry of Youth and Sports | Oct 2026
Data Analytics & BI (144 hrs) | Information Technology Institute (ITI) | Aug - Sep 2026
Data Analysis Training | Orange Center | Oct 2026

PROJECTS

- **Olist End-to-End Data Pipeline & Analytics** (Python, SQL Server, Power BI): ETL of 9 datasets into a Star Schema (1 fact, 7 dimensions) with PK/FK integrity; analysis showed about 8.1% late deliveries scoring 2.57 vs 4.29 stars on-time.
- **SQL Server ETL & Relational Warehouse** (T-SQL): deduplication with ROW_NUMBER(), TRIM/CAST normalization and CHECK, PK and FK constraints across 7 tables.
- **Python & SQL E-Commerce ETL** (Pandas, NumPy, SQL Server): IQR outlier capping, four assert-based quality checks and BULK INSERT staging.
- **BI Dashboards**: AdventureWorks and Pizza Sales (Power BI, DAX); E-Commerce Sales (Tableau Public).

CERTIFICATES

Data Warehousing: Schema, ETL, Optimal Performance (Coursera) | Data Analytics & BI, 144 hrs (ITI) | Overview of AI (Huawei ICT Academy) | Database Fundamentals (ITI Platform)

SOFT SKILLS

Analytical Thinking & Problem Solving | Teamwork & Collaboration | Continuous Learning | Time Management | Technical Communication | Attention to Detail
